

PROJECT TITLE

Polar Clothing Strategy

PROJECT DESCRIPTION

The BAS Polar Clothing Strategy will set out the direction of travel for BAS Polar Clothing for the next 5-10 years. The goal of this strategy is ensure clarity and to find a legal and morally acceptable balance between safety, cost and fairness. There are six interlinked areas the Strategy needs to cover: • Remit of polar clothing at BAS • Breadth of clothing options BAS wants to offer • Clothing buying strategy • Policy for recharging polar clothing • Policy for reuse of polar clothing • Governance structure for changes to Polar Clothing. All these areas are underpinned by risk analysis, legal obligations, moral/reputational impacts, and financial resourcing requirements.

SUGGESTED LENGTH – 6 weeks

JOB DESCRIPTION

Although initial work has been done across all six areas there is an opportunity for a keen and enthusiastic student to take some of these areas and:

- Research and evidence industry best practice
- Research and evidence the potential impact (risk, legal, moral and financial) of different options under consideration
- Use existing (non-aggregated) BAS Polar Clothing data to model the impact (risk, legal, moral and financial) of different options under consideration.
- Produce diagrams to facilitate BAS wide understanding of the options and their impacts.
- Scope the user requirements of any automation required to implement future policy. The proposed output from the student's work would be:
- Present their work to the Polar Clothing team and other
- Contribute to the Draft of the Polar Clothing Strategy
- Aggregated BAS Polar Clothing data for use in any further Strategy work and by other teams in their upcoming work such as Finance Transformation.

WHAT ARE WE LOOKING FOR?

A background in Outdoor Education, Supply Chain, or Business Analysis with an interest in Polar Clothing. Good computer skills in Word, Excel and Powerpoint.
