2	8 th Sep 2022 Item 5	Unable to find report by Nat Grid (Andy Richards report) on reasonable worst case affecting power grid.	Contact Andy Richards to find Report	Mat Hofton	Jan 2023
3	8 th Sep 2022 Item 5	Scale of power blackout, number of people affected and time to recover in Oughton paper are inconsistent with BEIS assessment from Andy Richard's Report.	Strongly recommend to Mark Prouse that BEIS commission a new analysis	Richard Horne	Jan 2023
4	8 th Sep 2022 Item 7	SEIEG web presence	Setup web site	Richard Horne/Jim Wild	Jan 2023
5	8 th Sep 2022 Item 8	Statement on safety of beam power in Fraser-Nash report on Space based solar power is incorrect and serious. Report also omits other key factors such as satellite-plasma interactions and effects on beam by ionosphere	Advise Mark Prouse at BEIS so relevant BEIS section can be alerted.	Richard Horne	Jan 2023
6	8 th Sep 2022 Item 8	Concern over radiation dose to aviation from SEP events. Evidence for very significant dose from 1956 event. Need for airlines to carry detectors for model verification. Not clear if these concerns are recognised by CAA/Airlines	Raise concerns at next SSWWG	Richard Horne	Next meeting TBD
